

# ConSlitter *Duplex slitter*

SLITTER. WINDER. KAMPF.

# ConSlitter CFRU SilverLine

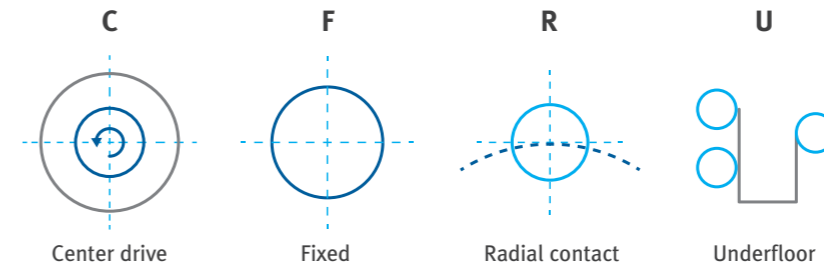

Practical and functional.  
Manifold applications.

Do you need a slitter rewinder that can process a variety of materials and is not too complex to operate? The ConSlitter CFRU SilverLine is the reliable and economic solution for your slitting needs.

With a speed of up to 600 m/min and two different working widths, materials up to an unwinding diameter of up to 1,000 mm can be unwound and rewound up to 610 mm. The machine is part of the proven ConSlitter series with a total of 1,000 machines already delivered.

You can select from a flexible modular system so that the machine can be equipped exactly to meet your requirements!

Efficiency.  
A definite strength  
of the ConSlitter.

## Wide range of equipment options.

For perfect slitting and rewinding results:

- Splicing table
- Scissor or blade cut
- Digital positioning aid for shear cut
- Friction or expansion shaft operation
- Antistatic equipment
- Eccentric contact rolls

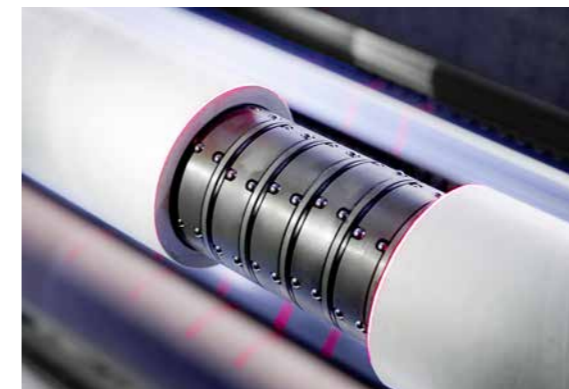

For high efficiency:

- Laser core positioning aid
- Finished rewind roll push-off device
- Various rewind roll removal stands
- Edge trim suction

Technical Data	ConSlitter CFRU SilverLine
Materials	Films, refined papers, laminates
Material thickness	10 – 500 µm
Material widths	1,450   1,750 mm
Parent roll diameters	1,000 mm
Finished roll diameters	max. 610 mm
Finished roll weights	max. 400 kg (feature-dependent)
Slitting systems	Blade cut   scissor cut
Slitting widths	≥ 25 mm
Winding cores	70 mm   3"   6"
Machine speed	max. 600 m/min

**Scissor cut**  
For best quality with long service life.

**Rewind**  
Short machine set-up times, precise adjustment, perfect finished rolls.

**Splicing table**  
High-quality splices made simple.
