#### Technical data

Material:	Plastic films, refined papers, laminates, compounds, adhesives tapes
Material thickness:	10 – 500 µm
Material width:	300 – 2,050 mm
Parent roll diameter:	max. 1,300 mm
Finished roll diameter:	max. 800 mm
Slitting system:	Razor blade cut / shear cut
Slitting width:	from 25 mm upwards
Winding cores:	70 mm / 3" / 6"
Machine speed:	max. 800 m/min

SLITTER. WINDER. KAMPF.

Conslit 

Creating flexibility

SLITTER. WINDER. KAMPF.

# Conslit – the machine full of possibilities

## Your requirement

Productivity, flexibility and quality define your machinery!

Success in a dynamic, highly competitive market is your target!

Customer satisfaction is your highest priority!

## The solution

### Conslit

The result is a modular machine design that offers maximum flexibility - the flexibility you need for your wide range of applications.

We provide best performance packages from the basic to the fully equipped machine.

Additionally, it is our goal to meet individual requirements.

## Your benefit

The Conslit is the reliable solution for your slitting orders.

The consistent development of proven technologies enables the reliable and efficient processing of a variety of material combinations.

Make use of permanent high processing speeds with constant high quality for handling large orders.

Find out about the advantage of short setup times, especially when processing small batch sizes.

## Your investment is safe!

### Shortest setup times through:

- Easy slit pattern setting
- Precise core positioning
- Quick finished roll handling

### Everything is possible

Large processing range for your production. Modular design from unwind to rewind:

- Variable dimensions of the rolls
- Flexible slitting module
- Variable web-path
- Finished roll handling

### High quality and reliability

- Reproducible roll quality: each day, year after year
- Highest reliability through repeatable superior quality

### Operation comfort redefined

- User interface with KAMPF 2-touch navigation
- Integrated safety concept

Wide range of applications - plastic films, papers, laminates

Unwind - operator-friendly and energy-efficient

Rewind - short set-up times, precise adjustment, perfect finished rolls

Optimal accessibility

Easy change of top knives

KAMPF 2-touch navigation

Roll handling - alternative systems
